

# Graphics-Toolbox®

Graphic Software for Learning & Creating

## For Immediate Release:

The Old Schoolhouse Magazine - 2010 TOS Crew Award - Best Customer Service

**New York** (May 21, 2010) - Teaching people to create, learn and have fun with computer graphics. That is our mission here at Great Software Tools and this month we were honored with the 2010 Homeschool Crew Seaworthy Award for Best Customer Service from The Old Schoolhouse Magazine. We were chosen from more than 75 other companies and our online tutorials were among the top reasons the crew members recognized Great Software Tools for this award. Our tutorials take you step-by-step through a variety of useful and inspiring projects, teaching important graphic elements along the way. Even the crew members with minimal computer experience applied their new skills and created projects that they were very proud of. It proved to be awakening to most - they had never imagined they could edit, recolor, manipulate and transform photos and images to express their personal creativity.
